Overview of 2025-26 Improvements - Core Subjects

Grade	Stream	Term	Course Code	Improvement	Rationale
12	ASP	All	BIO71A	Replacing the old resource with the new one aligns with the ongoing process, as this cohort of students began utilizing the updated resource in Grade 11ASP during the 2024–2025 academic year.	The new resource from Macmillan Learning Biology for the AP is completely aligned with the College Board AP® Biology Course and Exam Description (CED)).
09 & 10	ASP	All	BIO40A BIO50A	Resequencing of topics in Grades 9ASP and 10ASP, including the exchange of certain topics between the two grades.	To align with students' cognitive readiness, easier topics have been moved to Grade 9 and more challenging ones to Grade 10. Additionally, to maintain coherence in the spiral curriculum—especially after shifting some Grade 11 topics to Grade 12 due to reduced periods—related content has been reallocated accordingly. During the transition year (AY 2025–2026), some topic overlaps between Grades 9 and 10 are expected.
10 & 11	ASP	All	MAT	Enhancements to the ASP mathematics curriculum, through the earlier completion of essential precalculus content and a deeper exploration of key mathematical concepts, reinforce problem-solving skills and critical thinking, better preparing students for Calculus 2.	These improvements will better prepare students for Calculus 1 and Calculus 2 by the end of Grade 12, ensuring a smoother, more accelerated transition to university-level coursework and STEM-related fields.
9 & 10	Advanced	All	MAT	Enhancements to the advanced mathematics curriculum through a deeper exploration of key mathematical concepts reinforce problem-solving skills and critical thinking, while also better preparing students for Calculus 1.	These improvements will better prepare students for Calculus 1 by the end of Grade 12, ensuring a smoother transition to university-level coursework and STEM-related fields.
11 & 12	Advanced	All	CHM/BIO	G11 will take 2 periods of Chemistry and 1 period of Biology. G12 will be in transition and so continue taking 3 periods of Chemistry (which will change in AY 2026-27 to 2 periods of Biology and 1 period of Chemistry)	In light with the changes made by the MOE for AY 2025-26. Choosing this scenario will enable students to meet the admission criteria both, within the country and outside.
G10	General	All	SCI50	Standalone Physics & Biology subjects are replaced by Science with a focus on Physics.	In light with the changes made by the MOE for AY 2025-26. The changes are reflected starting with G10, keeping G11 & 12 as transitional years.

Overview of 2025-26 Improvements - Applied Subjects

Grade	Stream	Term	Course Code	Improvement	Rationale
10, 11 & 12	Advanced & General	1,2,3	All Cluster Courses	Enrich the clusters curricula with updated Level 3 National Qualification of 45 credits aligned to technology-based World skills standards.	To empower students with industry-relevant competencies, preparing them for global workforce demands and emerging advancements, and ensures having NQC certified graduates within the allocated qualification credits.
10, 11 & 12	General	1,2,3	Business Accounting BAA511, BAA512, BAA531, BAA532, BAA632 & BAA712	Introduction of new NQC units related to basics of business, economics, artificial intelligence, basic logistics & freight forwarding skills and basic public speaking skills.	These units in the business curriculum give students a broad skill set that not only prepares them for the workforce but also helps them navigate daily life, fostering informed decision-making and the ability to engage with the world in a meaningful way. Moreover, in the business curriculum, units like AI, public speaking, and logistics will support the government's AI adoption plan in the curriculum, and students are able to participate in Emirates Skills and WorldSkills.
12	Advanced	2	Health Sciences	Introduction of NQC credit-based electives	To allow students to choose courses based on their career aspirations – they can choose between cell and molecular biology or psychology.
9,10,11	Advanced & General	All	CSC400, CSC500, CSC600	Incorporate AI Literacy & Generative AI skills and cutting-edge technology advancement into the curriculum in alignment with IBM AI Skills Build and tech-industry demands.	To equip learners with key skills required for AI-driven future jobs and reinforce their AI competencies.

Schools Schedule

Periods distribution per week is as below:

Monday – Thursday

Period	Timing	Duration
1	7:30 - 8:20	50 minutes
2	8:25 - 9:15	50 minutes
1st Break	**9:15 - 9:30**	**15 minutes**
3	9:30 - 10:20	50 minutes
4	10:25 - 11:15	50 minutes
5	11:20 - 12:10	50 minutes
2nd Break	**12:10 – 12:40**	**30 minutes**
6	12:40 - 13:30	50 minutes
7	13:35 - 14:25	50 minutes
8	14:30 - 15:10	40 minutes

Friday

Period	Timing	Duration
1	7:30 - 8:20	50 minutes
2	8:25 - 9:15	50 minutes
Break	**9:15 - 9:30**	**15 minutes**
3	9:30 - 10:20	50 minutes
4	10:20 - 11:10	50 minutes

Subject Matrix - Middle School (Advanced Stream)

Subject	Grades 06 to 08
Arabic	5
Islamic Studies	3
UAE Social Studies and Moral Education	2
Physical Education	2
English	6
Math	7
Science	7
CCDI*	2
Creative Design	2
Total	**36**

*Computing, Creative Design, and Innovation
Middle school will follow the MoE Advanced Stream.

Subject Matrix - ASP Stream

Subjects	Grade 9	Grade 10	Grade 11	Grade 12
Arabic	4	4	3	4
Islamic Studies	2	2	2	2
UAE Social Studies & Moral Education*	1	1	1	1
Physical Education	2	2	2	2
English/ Chinese**	4	3	4	3
Math	6	7	7	6
Physics	5	5	6	6
Chemistry	4	3	4	4
Biology	3	4	3	4
Statistics				
Computer Science & AI	4	3	2	2
AP Capstone (Seminar & Research)		2	2	2
Creative Design	1			
Total	**36**	**36**	**36**	**36**

*1 period of self-learning will be provided for grades 09 to 12 in Social Studies.
**1.5 periods for Third language- Chinese to be offered from English periods to selected students only at Abu Dhabi, Al Ain and Al Dhafra campuses.

Subject Matrix - Advanced Stream

Subjects	Grade 9	Grade 10	Grade 11	Grade 12
Arabic	4	4	4	5
Islamic Studies	2	2	2	2
UAE Social Studies & Moral Education*	1	1	1	1
Physical Education	2	2	2	1

Cluster Focus Courses & Graduation Project***	8	9	10
Total	**36**	**36**	**36**

Grade 09 will be all advanced for AY2025-26
*1 period of self-learning will be provided for grades 10 to 12 in Social Studies.
**G10 Science is to be taught by Physics teachers.
***Graduation Project is within the cluster focus courses: 2 periods in G11 Term 3 and 2 periods in G12 Term 1.

مدارس التكنولوجيا التطبيقية
Applied Technology Schools

Applied Technology Schools

Educational Plan 2025-26

Subject Matrix
Applied Technology Subjects

Applied Common Courses: Improvements

Grade	Stream	Term	Subject/ Course Code	Improvement	Rationale
9	Advanced	1	Creative Design CDN400	Formative skills development in term 1 now include tasks that are aligned with Emirates Skills requirements.	To facilitate introduction of key skills needed for future Emirate skills competition.
9	Advanced	2, 3	Creative Design CDN400	Creative Design Showcase Projects focus shifts from Sustainable Design to new improved 'Design and Innovation towards a Sustainable UAE.'	The inclusion of innovation broadens the scope and range of the available new AY25/26 projects across CDN.
9, 10,11	Advanced & General	1, 2,3	Computer Science & AI CSC400, CSC500, CSC600	Incorporate the content with AI Literacy and Generative AI technologies aligned with the recent emerged AI advancement.	To empower the learners with the AI skills demanded for future careers and tech-industry jobs.

Applied Common Courses: Program 2025-26

Grade	Stream	Term	Course Code	Course Name	# of Periods
9	Advanced Science Program (ASP)	ALL	CSC403	Computer Science & AI	4
	Advanced	ALL	CSC400	Computer Science & AI	2
	Advanced	ALL	CSC401	Fundamentals of Programming	2
	Advanced	ALL	CDN401	Creative Design	2
	Advanced Science Program (ASP)	ALL	CDN402	Creative Design	1
10	Advanced Science Program (ASP)	ALL	CSC503	Computer Science & AI	3
	Advanced & General	ALL	CSC500	Computer Science & AI	2
	Advanced	ALL	CSC501	Applied Programming**	2
	General	ALL	CSC502	Programming Solutions*	3
	Advanced	ALL	CAI501	Programming Essentials*	2

**Excluding 'Applied Programming' for AHS cluster as more time is required to reach NQC credit hours.

Applied Common Courses: Program 2025-26

Grade	Stream	Term	Course Code	Course Name	# of Periods
11	Advance Science Program (ASP)	ALL	CSC603	Computer Science & AI	2
	Advanced & General	ALL	CSC600	Computer Science & AI	1
	Advanced & General	3	Cluster637	Graduation Project	2
12	Advance Science Program (ASP)	ALL	CSC703	Computer Science & AI	2
	Advanced & General	1	Cluster717	Graduation Project	2

Engineering & Innovation (ENI): Improvements

Subject	Grade/ Stream	New Updates
Mechanical Engineering	10 ENI	The proposed course: **Produce and edit three-dimensional models using Fusion360 and 3D Printing** (Industrial Design Category) ○ This unit standard develops skills in 3D modeling and printing using Fusion360, essential for industries like engineering and design, where it supports innovation, prototyping, and efficient production. ○ It will prepare students ensuring a smooth progression to Grades 11 and 12.
	11 ENI	The proposed unit: **Perform CNC Milling** ○ This unit standard develops skills in CNC milling, essential for industries like manufacturing, where it supports innovation, prototyping, and efficient production. ○ It will prepare students ensuring a smooth progression to Grade 12.
	11 ENI	The proposed units: • Perform CNC Milling • Produce and edit three-dimensional models using Fusion360 and 3D Printing (NON NQC) The key rationale for this amendment is to update the qualification structure and streamline the learning process by reducing unnecessary content overload. These changes align the program with Emirates Skills, WorldSkills standards, and the evolving needs of entry-level mechanical engineering programs in universities and higher education institutes. Introducing CNC Milling and Fusion360 (Industrial Design Category) in Grade 11 would align with the required skills for Emirates Skills and WorldSkills standards.
	11 ENI	In grade 11, there is one Mechanical track in the Advanced Engineering cluster, as listed below: **Advanced Engineering Cluster (CAD/CAM Track)** Perform Basic Machining, MAN03009NU17-N, 4 Credits Perform CNC Turning, ENG03071NU17-N, 4 Credits Perform CNC Milling, New unit, 4 Credits

Engineering & Innovation (ENI): Improvements

Subject	Grade/ Stream	New Updates
Electrical Engineering	11 ENI	The key rationale for this amendment is to update the qualification structure and streamline the learning process by reducing unnecessary content overload. These changes align the program with Emirates Skills, WorldSkills standards, and the evolving needs of entry-level electrical engineering programs in universities and higher education institutes. **Unit 1 - Mandatory:** Investigate electrical principles associated with electrical circuits course. (No update on the unit) **Offered for the engineering and innovation:** **Unit 2 – Optional:** Apply Wiring, Configuration, and Programming of PLC Systems. **Unit 3 – Optional:** Implement and Troubleshoot PLC Applications
	12 ENI	Dedicating Grade 12 courses to the electrical track provides opportunities to introduce new units and update existing ones, ensuring a more comprehensive and industry-aligned curriculum. This approach aims to achieve 100% coverage of contact hours while enhancing students' technical expertise, integrating industry best practices, and incorporating emerging technologies to meet the demands of higher education and the workforce. **Unit 1 - Mandatory:** Apply Digital Electronics Fundamentals **Unit 2 – Mandatory:** Apply Analog Electronics Fundamentals **Offered for the engineering and innovation:** **Unit 3 – Optional:** Assemble and Integrate Mobile Robotic Systems* **Unit 4– Optional:** Program and Optimize Mobile Robotic Solutions*

Engineering & Innovation (ENI)

Applied Engineering & Technology (AET): Improvements

Subject	Grade/Stream	New Updates
Mechanical Engineering	11 AET	The proposed unit: **Inspect the condition of petrol engine** ○ This unit standard develops skills in automotive maintenance ○ It will prepare students ensuring a smooth progression to Grade 12.
	11 AET	The proposed unit: **Perform basic maintenance on light vehicle systems** ○ This unit standard develops skills in automotive maintenance ○ It will prepare students ensuring a smooth progression to Grade 12.
	11 AET	The proposed unit: **Implement automotive electrical circuits and equipment** ○ This unit standard develops skills in automotive maintenance ○ It will prepare students ensuring a smooth progression to Grade 12.
	11 AET	The proposed course: **Perform Metal Joints by Manual Metal Arc Welding** ○ This unit standard develops skills in manual metal arc welding ○ It will prepare students ensuring a smooth progression to Grade 12.
	11 AET	The proposed unit: **Perform Metal Joints by Tungsten Inert Gas (TIG) Welding** ○ This unit standard develops skills in TIG welding ○ It will prepare students ensuring a smooth progression to Grade 12.
	11 AET	The proposed unit: **Perform Metal Joints by Gas Metal Arc Welding (GMAW)** ○ This unit standard develops skills in GMAW welding ○ It will prepare students ensuring a smooth progression to Grade 12.

Applied Engineering & Technology (AET): Improvements

Subject	Grade/ Stream	New Updates
Mechanical Engineering	11 AET	The proposed unit: **Principles and Applications of RAC, refrigerants and their effects on the environment** ○ This unit standard develops skills in refrigeration and air conditioning ○ It will prepare students ensuring a smooth progression to Grade 12.
	11 AET	The proposed unit: **Prepare and purge braze piping for RAC** ○ This unit standard develops skills in refrigeration and air conditioning ○ It will prepare students ensuring a smooth progression to Grade 12.
	11 AET	The proposed unit: **Install split AC units** ○ This unit standard develops skills in refrigeration and air conditioning ○ It will prepare students ensuring a smooth progression to Grade 12.
	11 AET	• The proposed units: • Inspect the condition of petrol engine • Perform basic maintenance on light vehicle systems • Implement automotive electrical circuits and equipment • Perform Metal Joints by Manual Metal Arc Welding • Perform Metal Joints by Tungsten Inert Gas (TIG) Welding • Perform Metal Joints by Gas Metal Arc Welding (GMAW) • Principles and Applications of RAC, refrigerants and their effects on the environment • Prepare and purge braze piping for RAC • Install split AC units The key rationale for this amendment is to update the qualification structure and streamline the learning process by reducing unnecessary content overload. These changes align the program with Emirates Skills, WorldSkills standards, and the evolving needs of entry-level mechanical engineering programs in universities and higher education institutes. Introducing new tracks for Welding, Automotive and Refrigeration and Air Conditioning in Grade 11 would align with the required skills for Emirates Skills and WorldSkills standards.

Applied Engineering & Technology (AET): Improvements

Subject	Grade/Stream	New Updates
Mechanical Engineering	11 AET	In grade 12, there are 3 Mechanical track in the Applied Engineering cluster, as listed below: **General Engineering Cluster:** **1. Automotive Track** Inspect the condition of petrol engine, New unit, 3 Credits Perform basic maintenance on light vehicle systems, new unit, 3 Credits Implement automotive electrical circuits and equipment, new unit, 3 Credits **2. Welding Track** Perform Metal Joints by Manual Metal Arc Welding, new unit, 4 Credits Perform Metal Joints by Tungsten Inert Gas (TIG) Welding, new unit, 4 Credits Perform Metal Joints by Gas Metal Arc Welding (GMAW), new unit, 4 Credits **3. Refrigeration and Air Conditioning (RAC)** Principles and Applications of RAC, refrigerants and their effects on the environment, new unit, 3 Credits Prepare and purge braze piping for RAC , new unit, 3 Credits Install split AC units, new unit, 3 Credits Dedicating Grade 11 courses to the mechanical track provides opportunities to introduce new units and update existing ones, ensuring a more comprehensive and industry-aligned curriculum. This approach aims to achieve 100% coverage of contact hours while enhancing students' technical expertise, integrating industry best practices, and incorporating emerging technologies to meet the demands of higher education and the workforce.

Applied Engineering & Technology (AET): Improvements

Subject	Grade/ Stream	New Updates
Electrical Engineering	11	The key rationale for this amendment is to update the qualification structure and streamline the learning process by reducing unnecessary content overload. These changes align the program with Emirates Skills, WorldSkills standards, and the evolving needs of entry-level electrical engineering programs in universities and higher education institutes. **Unit 1 - Mandatory:** Investigate electrical principles associated with electrical circuits course. (No update on the unit) **Offered for the Applied engineering and technology (AET):** **Unit 2 – Optional:** Explore Renewable Energy Technologies **Unit 3 – Optional:** Optimize Renewable Energy Applications
	12	Dedicating Grade 12 courses to the electrical track provides opportunities to introduce new units and update existing ones, ensuring a more comprehensive and industry-aligned curriculum. This approach aims to achieve 100% coverage of contact hours while enhancing students' technical expertise, integrating industry best practices, and incorporating emerging technologies to meet the demands of higher education and the workforce. **Unit 1 - Mandatory:** Apply Digital Electronics Fundamentals **Unit 2 – Mandatory:** Apply Analog Electronics Fundamentals **Offered for the Applied engineering and technology (AET):** **Unit 3 – Optional:** Electrical Installation Planning and Wiring Fundamentals* **Unit 4 – Optional:** Electrical Installation and Commissioning Practices*

Aircraft Maintenance Technology (AMT): Improvements

Grade	Stream	Term	Course Type / NQC / Code	Improvement	Rationale
G10	General	1	AMT 510 Aircraft Maintenance Mechanical Practices	Students will develop hands-on skills in mechanical tools, precision measurement, and workshop practices for aircraft maintenance. This unit enhances their ability to operate equipment safely, fabricate components, and apply thread-cutting and metalworking techniques, preparing them for advanced mechanical units.	As an introductory course, this unit builds fundamental workshop skills for future aircraft maintenance studies in systems, powerplant, and structures. It provides a structured learning path, ensuring students gain a strong foundation for real-world applications and align with industry standards and competitions like Emirates Skills and World Skills.
G10	General	2	AMT520 Aircraft Maintenance Electrical Practices	Students will develop essential electrical skills for aircraft maintenance, including hazard identification, wiring interpretation, electrical testing, and basic maintenance tasks. This unit builds confidence in handling electrical systems safely, preparing students for advanced avionics and electrical maintenance units.	This unit introduces students to aircraft electrical maintenance, providing a foundation for future specialized courses in avionics, wiring, and troubleshooting. It ensures a structured learning path, emphasizing safety, circuit fundamentals, and maintenance procedures, while aligning with industry standards and future skills competitions.
G11	General	1	AMT614 Aircraft and System Inspection	Students will develop key inspection skills, including safety procedures, visual checks, defect identification, and documentation. This unit builds confidence in aircraft assessment, preparing them for advanced maintenance courses.	As an introductory inspection unit, this course lays the groundwork for future maintenance studies in powerplant, avionics, and structures. It ensures students gain essential assessment skills before advancing to complex repairs, aligning with industry standards and preparing them for Emirates Skills competitions.
G11	General	2	AMT624 Airframe Powerplant	Students will gain advanced technical skills in interpreting engineering diagrams, troubleshooting, and applying rectification techniques essential for effective powerplant maintenance and defect reporting..	Adding this course ensures students are equipped to meet both Emirates Skills and World Skills competition standards while addressing the critical learning outcomes necessary for aircraft maintenance professionals
G11	General	3	AMT634 Aircraft Avionic Systems	Students will develop essential skills in electrical troubleshooting, wiring installation, and fault rectification, using advanced diagnostic tools to meet industry standards.	Introducing this course prepares students to excel in Emirates Skills competitions and enhances their proficiency in avionics systems, meeting the critical demands of modern aircraft maintenance

Aircraft Maintenance Technology (AMT): Improvements

Grade	Stream	Term	Course Type / NQC / Code	Improvement	Rationale
G11	General	1	AMT615 Aircraft airframe metalwork	Students will acquire hands-on expertise in sheet metal fabrication, structural repair, and the interpretation of aeronautical maintenance publications, enhancing their ability to perform and certify complex airframe repairs.	Adding this course equips students with critical skills to meet both Emirates Skills and World Skills standards while addressing essential competencies in aircraft structural maintenance and documentation.
G11	General	2	AMT625 Aircraft Structures Fabrication	Students will develop practical skills in inspecting, repairing, and fabricating aircraft sheet metal, including damage assessment, corrosion treatment, and riveting. This unit prepares them for advanced structural maintenance courses.	This unit builds foundational skills for future structural repair courses, ensuring hands-on experience in metal forming and repair. It aligns with aviation industry standards and prepares students for Emirates Skills competitions.
G11	General	3	AMT635 Aircraft Composite Inspection and Repair	Students will develop practical skills in composite structure repair, defect assessment, and documentation. This unit enhances their ability to apply repair techniques, interpret technical manuals, follow maintenance procedures, and certify work, preparing them for advanced composite and structural repair courses.	This unit provides a foundation in composite repair, ensuring students can read repair manuals, follow defect rectification procedures, and document maintenance tasks. It prepares them for future structural repair courses while aligning with industry standards and Emirates Skills competitions.

Advanced Health Sciences: Improvements

Grade	Stream	Term	Course Type / NQC / Code	Improvement	Rationale
10	Advanced	1	Legal and ethical responsibilities in healthcare	• Added PCs covering the ethics surrounding emerging technology and AI in healthcare. • Added debates on common ethical dilemmas in healthcare	To modernise the course so it aligns with the current industry trends To encourage critical thinking, allowing students to form opinions and articulate their rationale
11	Advanced	1	Human Anatomy	• More body systems to be added to course than before	To provide more fundamental knowledge about the human body
	Advanced	3	Introduction to Rehabilitation	• New course introduced to cover mobility, assistive devices and care for people with a range of debilitating conditions	Aligns with WorldSkills Standards and involves several practical skills and techniques.
12	Advanced	1	Common Health Conditions and Patient Needs	• Introduction of unit discussing the range of physiological disorders common in today's world and how to care for them	Benchmarked to BTEC. Includes the development of future-focused treatments. This course builds a necessary foundation for further study in healthcare and medicine.
	Advanced	2	Introduction to Psychology	• Course from FCHS 1st year Psychology Program	Alumni data for 2023 and 2024 showed psychology at FCHS is consistently within the top 3 most pursued majors by GHS students, with no prior coverage on the Health Sciences curriculum.
	Advanced	2	Health and Wellbeing	• Courses from FCHS 1st year Nursing Program	For articulation purposes, ATS students will transfer credits for these courses from high school to university.
	Advanced	3	Microbiology and Infection Control		
	Advanced	3	Fundamentals of Nursing

Creative Media Production (CMP): Improvements

Grade	Stream	Term	Course Code	Improvement	Rationale
10	General	1	CMP510	Introduction of Creative Software Skills unit which focuses on development of essential industry skills required for the expanding UAE Creative Economy and Emirates/World Skills Competition Standards.	Emphasis on alignment with current tested EMskills and challenges including sequence, pace and scope.
10	General	2&3	CMP521 CMP531	Develop Photography and Video Production Skills Unit and Animation Production Skills Unit have increased allocation of practical skills sessions to improve student skills development. Alongside this improvement, unit assessment refocuses to applying similar 'test' based scenarios as encountered in Emirates/World Skills Competitions.	Increased session allocation will improve essential industry skills and boost student potential in national and international competitions.
11	General	1	CMP610 CMP611	Introduction of new Design Interactive Publications Unit and Establishing a Career in Creative Industries Unit focusing on industry skills, career and personal portfolio development.	Assessment focused on UAE's Strategy for the Creative Industries which aims to promote the growth of the sector and increase its contribution to 5 per cent of the national GDP by 2031.
11	General	2&3	CMP621 CMP630	Introduction of new Developing Individual Creative Practice and Drawing and illustration for Multimedia Units.	Emphasis on alignment with current tested Em/WS skills and UAE National Creative Strategy.
12	General	1, 2 & 3	CMP710 CMP711 CMP720 CMP730	Introduction of new structure and sequence of skills delivery and assessment. Emphasis on developing individual creative practice, student selected Emirati industry project and presentation of career focused portfolio.	To increase the quality of the final portfolio, focus is concentrated on these 4 essential units, reducing from 9 G12 units in 2024/25, as per DG advice and guidance.

Business and Accounting (BAA):Improvements

Grade	Stream	Term	Course Type / Code / NQC	Improvement	Rationale
10	General	1	New NQC Unit/BAA511	New NQC unit as 'Business Fundamentals'	This new unit is an extensive, foundational course designed to introduce learners to the core concepts of business, providing them with the essential knowledge and skills needed to navigate and thrive in the world of business.
10	General	1	New NQC/BAA512	New NQC unit as 'Introduction to Economics'	This new unit covering basics of economics improves the competence of individual for making personal and social decisions about the multitude of economic issues that will be encountered over a professional life.
10	General	3	New NQC/BAA531/ BAA532	New NQC unit as 'Artificial Intelligence in Business'	Artificial Intelligence in Business helps learners to explore the diverse roles AI plays in enhancing business functions like accounting, finance, marketing, operations, HR and product development.
11	General	3	New NQC Unit /BAA632	New Unit 'Basic Public Speaking Skills'	This new unit covering Emirates Skills Challenges in category "Public Speaking" and it will open the door for the business accounting students to participate in Emirates Skills competition.
12	General	1	New NQC Unit /BAA712	New Unit 'Basic Logistics & Freight Forwarding Skills'	This new unit covering WorldSkills Challenges in category "Logistics & Freight Forwarding" and it will open the door for the business accounting students to participate in WorldSkills competition.

		School-based Quizzes (SBQ)	50%	
EoY	Summative	End-of-Year (EoY) Exam	100%	25%
Course Final Mark				100%

Contribution of Formative Assessments		
Term 1	40%	12
Term 2	40%	12
Term 3	100%	15
EoY Exam	0%	0
	Total Marks	**39**

Contribution of Summative Assessments		
Term 1	60%	18
Term 2	60%	18
Term 3	0%	0
EoY Exam	100%	25
	Total Marks	**61**

*Chinese language will not have a grade on the report card (only PASS if reached the appropriate competency level)

Assessment System

Assessment Scheme - Term-based Applied Courses

Type			
Termly Competency-based Assessment	Progress Milestone 1*	20%	60% (= Competent Pass)
	Progress Milestone 2*	20%	
	Progress Milestone 3*	20%	
End of Term Knowledge and/or Skills Test.	Summative Knowledge / Skills Assessment	40%	40%
			100%

*A milestone is achieved upon the completion of a pre-defined set of performance criteria.

Assessment System

Assessment Scheme - Term-based Common Courses G6-G9

Type	Category	Percentage	Weight
Interpersonal Skills	Teamwork	4%	20%
	Leadership	4%	
	Critical Thinking and Problem Solving	4%	
	Innovation and creativity	4%	
	Attendance, Respect and Punctuality	4%	
Competency-based Assessment	Progress Milestone*1	30%	80%
	Progress Milestone 2	25%	
	Progress Milestone 3	25%	
Course Final Mark			100%

*A milestone is achieved upon the completion of a pre-defined set of performance criteria.

Professional Certificates

Planned Professional Certificates	Awarding Body	Students	Price per Student (AED)	No. of Students
Critical Career Skills- Generative AI Foundation*	Certiport-Pearson	G12 CAI	440	406

Current Professional Certificates	Awarding Body	Students	Price per Student (AED)	No. of Students
PCAP Python Certified Associate Programmer	OpenEDG- Python Institute	G11 CAI	750	512
Cisco Certified Network Associate CCNA : Introduction to Network	CISCO Academy	G12 CNT& CAI	Free**	417
Artificial Intelligence Fundamentals **Digital Credential**	IBM	G11 ADV & GEN	Free	2539
HeartSaver	American Heart Association (AHA)	G12 AHS & GHS	180	439

* Pending for final management approval
**The certificate is offered free of charge to ATS learners due to the partnership with Cisco Academy.

Professional Certificates – cont'd

Current Professional Certificates	Awarding Body	Students	Price per Student (AED)	No. of Students
AutoCAD – Certified User	Autodesk	G11 ENI & AET	440	292*
Inventor – Certified User	Autodesk	G11 ENI & AET	440	292*
QuickBooks - User Certificate	National Association of Certified Public Bookkeepers (NACPB)	G12 BAA	700	31
Adobe Certified Professional in Premiere Pro	Adobe	G12 CMP	440	15

*No of students is based on 25% of students enrolled in the ENI and AET programs.

Standardized Exams

Standardized Exams	ASP			Advanced		General
